Clinical Skills and Simulation Center

Karolinska University Hospital Huddinge

*A comprehensive center for high practice and
patient safety*

Clinical skills and simulator center is a specially equipped unit for practical training in clinical and communicative skills using manikins and simulators.

The centers are located at Karolinska University Hospital, both in Huddinge and Solna. Clinical skills and simulator center offers practical training opportunities for all student categories from Karolinska Institute and Red Cross College as well as healthcare staff at Karolinska University Hospital.

Educators and supervisors are responsible for ensuring that the elements are carried out in a structured, hygienic, technical, ethical and safety-correct manner according to national guidelines.

After theory and practical review by an educator/supervisor, students are welcome to practice on their own in the evening.

Before you visit the clinical skills center

Always read the information on our website about the prerequisites before training.

Internal website: <http://inuti.karolinska/ktc>

External website: www.karolinska.se/ktc
